Overview Programme

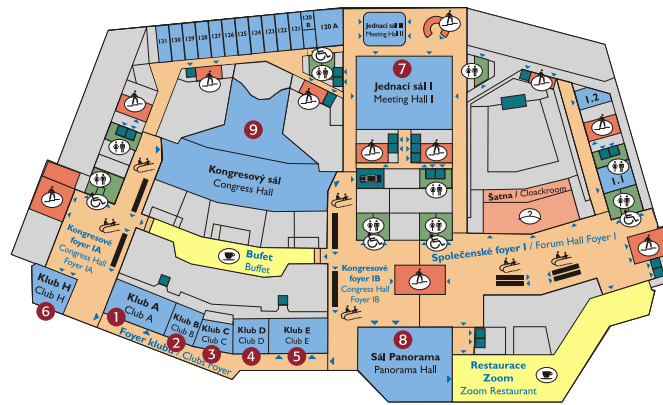

8 - 11 June | PRAGUE 2009

		Club A, B, C, D, E & H	
MONDAY 8 June	09.30 – 13.30 14.00 – 17.15 17.30 – 19.30	Tutorials	
		MAIN SESSIONS	
ROOMS		Meeting Hall 1	Panorama
TUESDAY 9 June	Block 1 09.00 – 10.30	SESSION 2 B1 - EMI, EMF and Safety	SESSION 6 B1 - Present State and Future Expectations of Regulation of DSOs
	Block 2 11.00 – 12.30	B2 - Steady-state Disturbances	B2 - Experiences of Smart Metering, Role of Distributed Generation in Energy Market
	Block 3 13.30 – 15.00	B3 - Disturbing Events	B3 - Customer Response for Dynamic Energy Market, Service Market and DSO's Organisations
	Block 4 15.30 – 17.00	B4 - Power Quality in the Competitive Market	B4 - Efficient Pricing & Tariffs
WEDNESDAY 10 June	Block 1 09.00 – 10.30	SESSION 1 B1 - Innovation in Design and Solutions	SESSION 5 B1 - Asset Management & Maintenance Strategies
	Block 2 11.00 – 12.30	B2 - Innovation in Methods and Specifications	B2 - Network Development
	Block 3 13.30 – 15.00	B3 - Tools and Methods for Asset Management of Cables and Overhead Lines (OHL)	B3 - Distribution Planning
	Block 4 15.30 – 17.00 19.30 – 23.00 Gala Evening Monastery Restaurant	B4 - Tools and Methods for Asset Management of other Equipment	B4 - Methods and Tools
THURSDAY 11 June	Block 1 09.00 – 10.30	SESSION 3 B1 - Operation	SESSION 4 B1 - Analysis of Stability, Faults, Impacts, New Technologies
	Block 2 11.00 – 12.30	B2 - Control	B2 - Customer Side Developments and Initiatives
	Block 3 13.30 – 15.00	B3 - Protection	B3 - Grid Integration, Planning
	Block 4 15.30 – 17.00	B4 - Protection	B4 - Operation, Control and Protection of Distribution Systems with DG/DER
FRIDAY 12 June	* Technical Visits		

Congress Hall (1st Floor)	Exhibition Area (2nd & 3rd Floor)
OPENING CEREMONY	Opening of Exhibition & Welcome Drinks Reception
ROUND TABLES & RIF	
Meeting Hall IV	Meeting Hall V
SESSION 1 RT1/RT5 Strategy of Replacement of Components RT1/RT5 Methodology of Data Analysis and Decision Criteria RT1a Monitoring of Equipment RT1b State of the Art on Superconductivity	SESSION 5 RIF5 Research and Innovation Forum RIF1 Research and Innovation in Modelling and Simulation RT5a Active Networks and Smart Grids: Sustainable Evolution of the Present Distribution System RT5b Distribution System Development facing the Evolution of Load Typology associated with New Profiles and Requirements
SESSION 3 RT3a Convergence of Network Protection and Network Control Systems RT3b Phase Measurement Units (PMU) and Wide Area Measurement in Distribution Systems RIF3a Network Operation and Communication RIF3b Network Protection	SESSION 4 RT4a Virtual Power Plant Operation RT4b Developments with DG and Active Networks RT4c Distribution Network Integration Challenges for DER RIF4 Research and Innovation Forum
SESSION 2 RT2a Voltage Dip Immunity of Equipment used in Installations RT2a Continued... RT2b CEER / EURELECTRIC cooperation on Continuity of Supply and Voltage Quality Requirements and Incentives RIF2 Research and Innovation Forum	SESSION 6 RT6a The Role of Network Operators (TSO, DSO) in Development of Electricity Marketplace RT6b New business potential for DSOs - electrical vehicles RT6c Business impacts and incentives of regulation for DSOs and Smart Grids (Part 1) RT6c Business impacts and incentives of regulation for DSOs and Smart Grids (Part 2)

Four Interactive Guided Poster Tours take place each day, starting from 09.00 hrs and lasting up to 1.5 hrs per block.
